

## Air extraction wind turbine 300W

**Price: 2.950,00€**

**SKU:** etneo-D300

**Product Categories:** [Vertical Technology Wind Turbines](#)

**Product Page:** <https://etneo.com/prodotto/air-extraction-wind-turbine-300w/?lang=en>

### Product Summary

Air extraction wind turbine 300W

### Product Description

The Hi-VAWT small wind turbine model D300 uses the 3 blades Darrieus technology, which guarantee high efficiency, to work on the air extraction systems producing huge quantity of energy, proportional to the air output volume.

### Product Attributes

- Dimensions: N/A
- Weight: 50 kg
- Misura: axis lenght 1,14m, rotor diameter 1,25m
- Modello: D300 Off grid
- Peso netto: 33Kg
- Potenza:
- Tensione: 24V DC
