

## Vertical axis small wind turbine DS300

**Price: 2.950,00€**

**SKU:** etneo-DS300

**Product Categories:** [Vertical Technology Wind Turbines](#)

**Product Page:** <https://etneo.com/prodotto/vertical-axis-small-wind-turbine-300w/?lang=en>

### Product Summary

Vertical axis small wind turbine 300-500W

### Product Description

Micro Hi-VAWT wind turbine in its structure combines a dual system consisting of Darrieus blades that provide high efficiency and Savonius blades that allow activation of the system with very weak winds. This combination of technologies makes the product Hi-VAWT highly innovative and, thanks to the included controller, can always check the power rating at full wind speed.

### Product Attributes

- Dimensions: N/A
- Weight: 40 kg
- Misura: 1,0m overall diameter
- Modello: DS300 Off grid
- Peso netto: 25Kg
- Potenza:
- Tensione: 24V DC
